

Accelerating infusion referrals for **Case Managers**

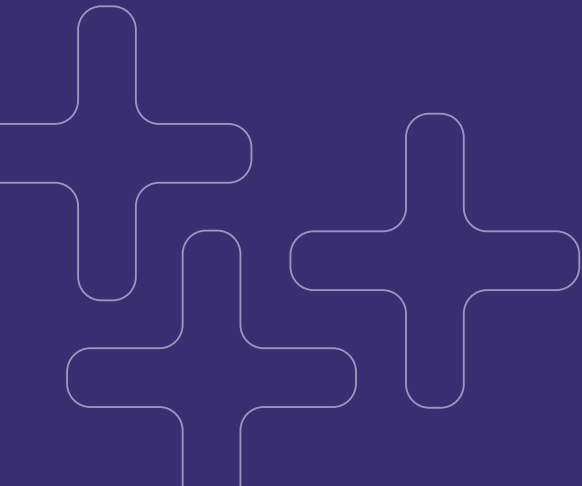

option care health®

Case Management

Option Care Health is your
trusted infusion provider with
unmatched national health
insurance coverage and a
simple referral process

**so your patients can begin
therapy sooner.**

#1 in payer coverage nationally¹

Option Care Health is the only national infusion provider in-network with every major health plan including UnitedHealthcare®, Humana®, Aetna™, TRICARE®, Cigna®, VA CCN (Optum® and TriWest®), Centene® and all affiliated plans as well as all Anthem® and Blue Cross Blue Shield® plans.

- Providing service to 96%¹ of all insured lives
- Enrolled as a participating provider in Medicare and Medicaid in all 50¹ states

Rapid referral response

- We respond promptly to your referral request and work quickly to process insurance benefits
- Our goal is to exceed discharge time expectations, including weekend starts

Dedicated Clinical Transition Specialist (CTS)

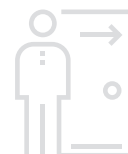

- Every CTS is a registered nurse
- This liaison is committed to simplifying the referral process
- Prior to discharge, a CTS provides thorough education that gives patients and their caregivers the confidence to safely self-administer therapy at home
- Patients are provided 24/7/365 clinical support

Simple referral process

You send the referral and we'll take care of the rest

- Our patient registration team quickly verifies insurance eligibility or benefits and obtains health plan authorization, where required
- Expertise with identifying and accessing manufacturer copay assistance programs which may help reduce out-of-pocket expenses for eligible patients

The numbers tell the story

99.9%^{2, †, ‡}

rate of incident-free infusion encounters

0.8%^{3, ≈}

rate of unplanned hospital admissions for patients receiving IV Antibiotic Therapy

95%⁴

overall patient satisfaction

¹Percentage of successful infusion encounters without any type of unplanned event relative to total number of infusion therapies.

²Incidents were defined as therapy-related hospital admission, delayed or missed dose, adverse drug reaction, dispensing error or patient non-compliance.

³Hospital admissions that occurred within 30 days of start of care with Option Care Health; expressed as a percentage of patient census.
