

Leading the way to successful **IV Antibiotic Therapy**

option care health®

IV Antibiotics

Option Care Health is your trusted IV Antibiotic infusion provider with unmatched national health insurance coverage and an easy referral process **so your patients can begin therapy sooner.**

#1 in payer coverage nationally¹

Simple referral process

Industry leading patient satisfaction

Dedicated patient support team

Admission alternative

Expanding IV Antibiotic treatment options

Patient status reports

#1 in payer coverage nationally¹

Option Care Health is the only national infusion provider in-network with every major health plan including UnitedHealthcare®, Humana®, Aetna™, TRICARE®, Cigna®, VA CCN (Optum® and TriWest®), Centene® and all affiliated plans as well as all Anthem® and Blue Cross Blue Shield® plans.

- Providing service to 96%¹ of all insured lives
- Enrolled as a participating provider in Medicare and Medicaid in all 50¹ states

Simple referral process

You send the referral and we'll take care of the rest

- Our patient registration team quickly verifies insurance eligibility or benefits and obtains health plan authorization, where required
- Upon request, updates are sent to the prescriber when patients are on service and the first dose is scheduled

Industry leading patient satisfaction

Our **95%**² patient satisfaction demonstrates our commitment to a positive patient experience.

A dedicated patient support team

- A single point of contact who enables timely communications and prompt resolution of any patient issues
- Patients and their caregivers receive thorough self-administration education, in addition to close patient monitoring by a pharmacist and nurse throughout their length of stay
- 24/7/365 access to experienced infusion therapy clinicians

Admission **alternative**

- Patients can avoid hospital admission costs by initiating therapy at one of our infusion suites*
- Our infection control policies align with the current CDC guidelines to best protect patients

Expanding IV Antibiotic treatment options

Our broad access to antibiotics offers solutions for patients who lack caregiver support at home.

One-dose and/or oral therapy options include:

- Dalvance®
- Nuzyra®
- Xenleta™

Patient status reports

Progress reports** enable prescribers to remain informed on their patient's status, providing labs and clinical notes throughout their infusion treatment.

The numbers tell the story

99.9%^{3,†‡}

rate of incident-free infusion encounters

0.8%^{4,≈}

rate of unplanned hospital admissions for patients receiving IV Antibiotic Therapy

95%²

overall patient satisfaction

*Available at select locations.

**Available upon request.

†Percentage of successful infusion encounters without any type of unplanned event relative to total number of infusion therapies.

‡Incidents were defined as therapy-related hospital admission, delayed or missed dose, adverse drug reaction, dispensing error or patient non-compliance.

≈Hospital admissions that occurred within 30 days of start of care with Option Care Health, expressed as a percentage of patient census.
