

Restoring a better quality of life

Nutrition Support

# Restore<sup>+</sup>

By Option Care Health™

Simple referral process

Robust patient education

Industry leading nutritional expertise

Dedicated patient support team

## Dedicated to restoring a better quality of life for every patient

Option Care Health sets a new standard for nutrition support. Our highly-skilled nutrition team takes exceptional care of patients by closely monitoring their progress toward individual goals to help restore a happier, healthy life.

## Simple referral process

You send the referral and we'll take care of the rest

- Our patient registration team quickly verifies insurance eligibility or benefits and obtains health plan authorization
- Expertise with identifying and accessing manufacturer copay assistance and foundation programs, which may help reduce out-of-pocket expenses for eligible patients
- Insurance coverage criteria and qualification support to prevent gaps in coverage

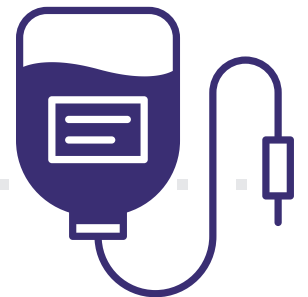

*Option Care Health has the #1 payer coverage nationally<sup>1</sup>*

## Robust patient education

We give patients the confidence to administer therapy and support adherence

- Counseling and instruction before tube/catheter placement
- Step-by-step guides and video training on how to effectively administer therapy for patients and caregivers
- Details about safe, reliable product and supply deliveries

# The infusion industry's leading **Certified Nutrition Support Clinicians (CNSC)**

With registered dietitian-led clinical care, we help to prevent hospital readmission and reduce healthcare costs<sup>2</sup>

**Our nutrition experts provide every patient:**

- Customized education and treatment plans
- Close monitoring and oversight with no gaps in care
- Clinical intervention following evidence-based protocols
- Early and proactive transition off therapy, when appropriate

Patient experience and safety are top priorities at Option Care Health. Our dietitians truly embody these values by demonstrating passion for nutrition support with every patient interaction.

**“** I feel like I'm an individual working with Option Care Health, not just a cancer patient. The nutrition and support has changed everything. I feel like Option Care Health saved my life. **”**

**Bill, Option Care Health patient, TPN**

# A dedicated **patient support team**

Our expert nutrition teams are comprised of

Pharmacists

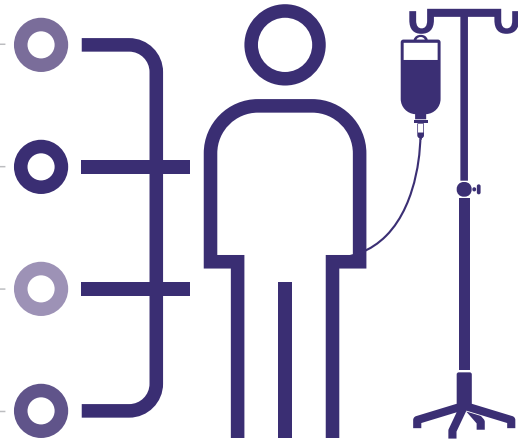

Registered Dietitians (CNSC)

Clinical Transition Specialists

Registered Nurses

# We are an extension of **your clinical team**

- Coordinated care from hospital to home
- Comprehensive initial and ongoing nutrition assessments
- Close clinical monitoring and clinical intervention recommendations
- Nutrition formula guidance including use of advancement and weaning protocols
- Customization of TPN formulation based on lab results to fit patient's nutritional needs
- Collaboration and communication with all members of the patient's healthcare team
- Patient progress reports sent to prescribers upon request

“Having worked with home PN patients the majority of my career, there are no better home infusion dietitians than those at Option Care Health. I make this very vocal to my team that our patients are served by this group due to their dedication to patient care, knowledge and superb communication.”

Option Care Health customer
